

Relieving Headache, Muscle, and Joint Pain using TMS

Category

Other

Enrollment Closing Date

Jun 1, 2022

Description

Dr. Albert Leung and associates are assessing the use of Transcranial Magnetic Stimulation (TMS) as a treatment option for chronic headaches and pain. This is a non-invasive, non-medicated study. This study consists of 15 visits that take place over the course of 3 months.

Requirements

To be eligible, you must be a Gulf War I Veteran between the ages of 18-65 with chronic headaches, muscle and joint pain.

Benefits

TMS has been shown to alleviate symptoms associated with chronic pain. There will be compensation of up to \$550.
