

Opportunity for Human Research Subjects

Compassion Program to Reduce Loneliness in Veterans with Psychosis

Category

Mental Health

Enrollment Closing Date

04/01/2024

Description

Loneliness and social disconnection is a problem for many people, especially those who might experience psychosis. This pilot study will help us develop a program to address these feelings in Veterans with psychosis. Participation involves 1 baseline visit, 6 weekly groups, and 1-2 follow-up visits. You can participate in-person or virtually. You'll be asked to complete pre- and post-surveys, and your thoughts about the program. You can receive up to \$100.

Requirements

1) Veteran status, 2) Diagnosis of Schizophrenia or Schizoaffective disorder, 3) Have been bothered by feelings of loneliness in the past 2 weeks, 4) Can provide informed consent.

Benefits

There may or may not be a direct benefit to you from the program. However, you can help researchers to adapt and improve this program for other Veterans in the future. You can also receive up to \$100 for your time and efforts.
