

TMS for Traumatic Brain Injury (TBI) related Headaches

Category

PTSD/TBI

Enrollment Closing Date

Jun 1, 2023

Description

Dr. Albert Leung and associates are assessing the use of Transcranial Magnetic Stimulation (TMS) as a treatment option for headaches due to a traumatic brain injury. This is a non-invasive, non-medicated study. This study consists of 17 visits that take place over the course of three months.

Requirements

To be eligible, you must be a veteran or active-military 18-65 yrs old with chronic headaches due to a mild traumatic brain injury.

Benefits

TMS has been shown to alleviate symptoms associated with chronic pain and headaches. Compensation up to \$730.
