

Title**Alleviating Headaches and Pain in Gulf War Illness
with Neuronavigation guided rTMS****Category**

Other

Enrollment Closing Date

Sep 30, 2018

Description

Dr. Albert Leung and associates are assessing the use of Transcranial Magnetic Stimulation (TMS) as a treatment option for chronic headaches and pain. This is a non-invasive, non-medicated study. This study consists of 11 visits that take place over the course of 10 weeks.

Requirements

To be eligible, you must be a Gulf War I Veteran between the ages of 18-65 with chronic headaches and pain.

Benefits

TMS has been shown to alleviate symptoms associated with chronic pain.
